

## Crawfordsville Community School 2021-2022 Dyslexia Intervention Data

The Indiana General Assembly passed SEA 217 regarding the identification of students who may exhibit *characteristics* of dyslexia.

House Enrolled Act 1108 defines dyslexia as:

- is neurological in origin and characterized by: difficulties with accurate or fluent word recognition; and poor spelling and decoding abilities;
- typically results from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction;
- may include problems in reading comprehension and reduced reading experience that can impede the growth of vocabulary and background knowledge;
- may require the provision of special education services after an eligibility determination is made in accordance with Article 7.

CCSC dyslexia data for the 2021-2022 school year is reported below as required by this legislation:
