

Greetings!

Next week we will be celebrating Dr. Suess week at Hose. We will be sharing a lot of his classic stories and having fun with rhyming words. Attached you will find a schedule of our week's clothing options if you wish your child to participate.

We have been learning all about graphs and organizing data in math. The kids are able to tell about their favorite activities, foods and colors through tally charts, pictographs and bar graphs.

In reading, we continue to work on both fiction and non-fiction texts and thinking about the author's message. We will be writing our own non-fiction books in during writing time.

This Friday is also another popcorn day. Send 50 cents for a bag of popcorn if you wish to participate.

Sincerely,

Mrs. Bergfors
